# THE STUDIO

A white space of calmness, pampering, dress up and gorgeousness that's all about you. I have carefully curated my studio to be a space dedicated to you. When you first arrive for your shoot we'll go through the outfits we've chosen together and hang them ready for your changes. You'll take a seat at our hair and make up area, where you can relax and it's entirely up to you how you look. Meanwhile I'll start planning your session down to the last pose, so that when we start photographing it all runs smoothly. We do multiple different outfit changes and capture every combination of you and your daughter, sister, mother, partner or family; those you have chosen to be photographed with.

Once the photo shoot is complete we'll find a date for you to come back to view your images. Maybe it's something for the wall or a little more personal like a folio box or a piece of art for your home. We create a behind the scenes personalized video of your experience just for you. All products are A La Carte so it's entirely up to you what you take home.
